Introducing the BG PAYROLL AGENCY (part of Beatons Group Chartered Accountants)

Peace of mind for all businesses

It can make good sense to outsource your payroll to a third-party professional service provider.

You can:

- Keep salary and payroll matters confidential and secure away from prying eyes.
- Have peace of mind knowing that the payroll is being handled by a team of dedicated payroll professionals.
- Utilise the time and cost saved in-house to much better advantage.
- Stop worrying about keeping up-to-date with legislative changes especially operating PAYE in Real Time (RTI).
- Forget the cost of buying and supporting payroll software and training in-house staff.
- Have an annual guaranteed fixed cost for the service.
